THE POWER OF TECHNOLOGY & INNOVATION

About us...

The Great Visionary Man, **U. Shri. Odhavji Bhai R. Patel** started manufacturing of Wall Clocks in Ajanta Transistor **Clock Mfg. Company** and accomplished several milestones and also became the "World's Largest Clock Manufacturing Company" and later diversified into various verticals such as Lighting Products, **E-Bike** (Battery operated Bike), Home Appliances, Electrical Accessories and Electronic Products like Telephones, Calculators, **LED TV** etc.

Ajanta Manufacturing Pvt. Ltd., (Oreva Group), a well-known company, has the strong infrastructure with one of the largest manufacturing plants in India; spread over 200 acres of land (at Samakhigali, Kutch District, Gujarat) with the complete set up of state-of-art in-house manufacturing facility and firmly adhering the Govt's vision of "**Make-in-India**". The company has the motto of "Women Empowerment" with the workforce of more than 5,000 women employees. The company has also won many prestigious awards from various government bodies and in result "Oreva is being regarded as one of the Major Brands in India" with the strong network of more than

55,000 channel partners across the country.

Oreva, the formidable name for Innovation with Quality and the company has been considered as the pioneer of manufacturing and marketing of CFLs and became the "India's 2nd Ranked Brand" in terms of Sales Volume of CFL Products in the year 2007 (as per the report of AC Nielsen ORG - MARG Pvt. Ltd., dated 4th February 2008) and later diversified into LED Lighting Products and created its own niche in LED Lighting Industry. It is a well-known fact that "Oreva is one of the largest manufacturers of Lighting Products in India" with a massive in-house manufacturing facility to produce huge variety of LED Lighting Products such as LED Lamps, Tubelights, Down Lights, Panel Lights, Spot Lights, Flood Lights, Hi-Bay Lights, Street Lights etc. which are available in a wide range "from 0.5 watt to 500 watt". Subsequently, Oreva Lighting products are widely being preferred for various lighting solutions for home, office, commercial, industrial, indoor and outdoor lighting applications.

In order to cater the Digital Era, the company offers a wide range of Digital Clocks with the features like Temperature, Humidity, Calendar, Time, and Battery Back-up etc. which are available in various designs, colors, and sizes. Oreva, already being a world's leader in wall clock segment has also become the pioneer in Digital Clock segment in India. Oreva has strengthened its digital product portfolio by introducing the Moving Display Boards which are available in various customized sizes according to the customer requirements, styles, languages etc which are widely being used for Digital Communication and much effective for displaying public information/messages.

OREVA is amongst the few leading industrial houses to invest in the affordable E-bike technology that has the potential to transform the way people travel in India and is, of course, the solution for the alternate source against petroleum fuel and it also has the influence of no carbon-emission to develop "Pollution Free Environment for the Country".

The company has developed various products so far to meet the necessities of "Mass Consumer Market" in India and the core philosophy of the company is to maximise "Value for Money" by providing "Quality Products at Affordable Price" to cater various socio-economic segment of people and it has been instrumental for the success of the company.

5 SOCKET SURGE PROTECTOR WITH 2USB

GREEN LED - INDICATES THAT THE ELECTRICAL WIRING IS PROPERLY GROUNDED

Protection from Voltage Spikes: They protect against voltage spikes that can damage electronics. These spikes can be caused by lightning strikes, power outages, or fluctuations in the electrical grid.

Extended Device Lifespan: By preventing power surges, surge protectors can extend the lifespan of your devices.

Energy Efficiency: Some surge protectors also come with energy-saving features that help reduce power consumption.

Convenience: They often include multiple outlets and USB ports, providing a convenient way to charge and power several devices at once.
